### Accounting (ACCT)

**Courses**

**ACCT 108 Fundamentals of Accounting 3 Credits**
A one-semester survey of accounting principles and practices designed for those students which includes an introduction to industrial cost systems designed for those non-CBE students planning to take only one accounting course. Other students should take the Acct 151-152 sequence.

**ACCT 151 Introduction to Financial Accounting 3 Credits**
The organization, measurement and interpretation of economic information. Introduction to accounting theory, concepts and principles, the accounting cycle, information processing, and financial statements. Exposure to controversial issues concerning income determination and valuation. Must have sophomore standing.

**ACCT 152 Introduction to Managerial Accounting 3 Credits**
An introduction to internal accounting information for all levels of management. Topics include cost flow in a manufacturing operation: planning, evaluating and controlling through budgeting and standard costing; and decision-making using cost-volume-profit analysis, direct costing, and relevant costs.

**ACCT 307 Fundamentals of Federal Income Taxation 3 Credits**
An introductory study of the principles and concepts of federal income taxation of individuals, corporations, partnerships, and fiduciaries; and federal gift and estate taxes. Determination of tax liabilities and opportunities for planning are emphasized. Problem-solving using the source materials of tax law and tax research are important components of the course.

**ACCT 309 Advanced Federal Income Taxation 3 Credits**
An advanced study of the taxation of business organizations, estates, trust, and wealth transfer taxes. Planning and research are the basic components of the course. Problem-solving and writing research are emphasized.

**ACCT 311 Accounting Information Systems 3 Credits**
An introduction to the concepts underlying information systems as they relate to organizational structure, managerial decision making and accounting. The course acquaints students with the reports and documents generated by information systems, as well as procedures and controls employed in a variety of business applications. Students apply these concepts, techniques and procedures to the planning, analysis and design of manual and computer-based information systems.

**ACCT 315 Intermediate Accounting I 3 Credits**
Intensive study of the basic concepts and principles of financial accounting, emphasizing the problems of fair presentation of an entity's financial position, operating results and cash flows. Understanding of the conceptual framework of accounting, review of the accounting process, and recognition, measurement, valuation and disclosure of current assets, fixed assets, and intangibles. Problem-solving skills and critical analysis are stressed.

**ACCT 316 Intermediate Accounting II 3 Credits**
The sequel to Accounting 315, this course continues with intensive study of recognition, measurement, valuation and disclosure issues relating to such topics as investments, liabilities, leases, pensions, income-taxes, share-based payments, revenue issues, earnings per share, and complexities related to the statement of changes in financial position. Analysis and interpretation of financial statements and problem-solving skills are integral parts of the course.

**ACCT 317 Advanced Financial Accounting 3 Credits**
A study of specialized topics in financial accounting, including partnership accounting, business combinations and consolidated financial statements, segment and interim reporting, foreign currency transactions and translation, and accounting and reporting for governmental and other nonprofit organizations. Involves considerable problem-solving and critical evaluation of controversial theoretical issues.

**ACCT 318 Analysis of Financial Statements 3 Credits**
This course uses financial statement information to analyze companies' profitability and risk. Understanding the form, content and relationships among the financial statements is integrated with the use of ratios and analytic adjustments to augment the information in published financial reports. Current developments, business strategies and off-balance-sheet financing are linked to assessments of companies, performance. Case studies, team projects and presentations involve actual companies, financial statements. Open only to graduating seniors.

**ACCT 319 Advanced Financial Accounting 3 Credits**
Can be taken Concurrently: ACCT 316

**ACCT 320 Fundamentals of Auditing 3 Credits**
An introduction to auditing theory, objectives, and practices related largely to the responsibilities of independent professional accountants. The auditing environment, generally accepted auditing standards, internal control theory, and reporting alternatives are considered. Exposure to operational auditing is provided.

**ACCT 322 Non-Financial Reporting and Analysis 3 Credits**
This course uses financial statement information to analyze a company's financial performance, including the impact of non-financial factors. Topics include trend analysis, benchmarking, and ratio analysis.

**ACCT 324 Cost Accounting 3 Credits**
An in-depth study of cost concepts appropriate for product costing in a manufacturing operation, planning and controlling routine operations, and decision-making. Topics include job order and process costing, joint and by-products, cost allocation, budgeting, standard costing, direct costing, cost-volume-profit analysis, and relevant costs for decisions.

**ACCT 325 Cost Accounting 3 Credits**
Can be taken Concurrently: ACCT 316

**ACCT 330 Accounting Data and Analytics 3 Credits**
This course uses publicly available financial statement information to programmatically analyze company activities. Obtaining, cleaning, exploring, analyzing with statistical and machine learning methods, and presenting accounting data are explored in a project based format. Non-financial related information analyses are linked to audit and risk assessments. Projects and papers involve actual entities and associated financial information. Credit will not be given for both ACCT 3xx, Data Analytics for Accountants and MACC 42x, Data Analytics for Accountants.
