The Latin American and Latino Studies program is designed for students who wish to develop an understanding of a neighboring region that is of vital importance to the United States, and also of those Latino communities within the United States itself. Courses in anthropology; archeology; foreign policy; history; language and literature; politics; sociology; and art, architecture and design allow students to explore various aspects of Latin American and Latino cultures and societies from an interdisciplinary perspective. The program contributes to a liberal arts education by offering students an international vantage point from which they can examine the cultural complexity of their own society, preparing them to meet the challenges of an increasingly interdependent world. Additionally, the unprecedented movement of peoples and ideas between the American continents in recent decades makes the study of Latin America and its connections to the U.S. Latino population an essential component for understanding the history and culture of globalization in the Americas. The major and minor in Latin American and Latino Studies thus complement the study of other disciplines with either an international or a domestic focus, and enhance the relevance of a Lehigh education by preparing students to be citizens of a culturally diverse society and, more generally, of the Americas.

This course offers a historical comparative analysis of the nature and dynamics of race between the United States and Latin America.
