Music

The study of music develops skills which will serve the student well in any career: self-discipline, teamwork, problem solving and leadership. A student graduating with the B.A. degree in music will have a strong foundation in music theory and substantial exposure to western music from the Middle Ages to the present. This curriculum will prepare a student for graduate studies in musicology, music theory, composition, jazz, conducting, or performance. A music major or minor taken in conjunction with a business major may lead to a variety of careers in arts management or in the recording and music publishing industries. For some a double major or a minor in music will not lead to a career but to a lifelong involvement with an art form that gives lasting satisfaction.

The music department (http://music.cas2.lehigh.edu) also offers significant performance experiences in instrumental and vocal ensembles, large and small, and in private instruction. The Zoellner Arts Center (http://zoellner.cas2.lehigh.edu) facilities include a Listening Library, practice rooms, a composition and digital class piano studio, a fine recording studio, classrooms and rehearsal rooms. Most importantly, the center boasts its concert facility, Baker Hall. With its 1000-seat capacity and excellent acoustics, it is flexible both on the stage (concert or theater mode) and in seating arrangements. The fully adjustable pit can serve opera or musical theatre, can provide additional seating, or can become an extension of the stage.

MAJOR PROGRAM
The Bachelor of Arts in Music (36-credit minimum) is for those students who wish to have double majors, who might choose a related field (e.g., arts management, part-time performance careers in orchestras) or who simply want a concentrated exposure to music study. Students choose between five different concentrations: performance; history and literature; theory and composition; jazz; conducting. For those who intend to pursue graduate study in music or a performing career, the major program should be viewed as the minimum requirement. Such students should regularly seek the advice of department faculty in expanding their program to suit their particular needs and goals.

MUSIC OPTION
Although Music and Engineering/Science is not a major in itself, Lehigh attracts many engineering and science students who wish to continue their active involvement in music and the music department. For those students who are interested in pursuing this option, music can be taken as a dual degree (B.S. or B.A.), minor or elective.

CONCERT REQUIREMENT
Majors and minors must enroll in MUS 100 and attend concerts approved by the music department for a minimum of three semesters.

DEPARTMENTAL HONORS
A student must have a 3.75 average in courses in the major to pursue honors. Candidates for departmental honors should submit to the department chair a written proposal, prepared in consultation with a faculty project adviser by the end of the junior year. The project which must go beyond required course work could result in a research paper, a composition or a performance. Upon acceptance of the proposal by the department faculty, the student should register for MUS 350 for one to six credits, which may be taken all at once or over the senior year. The awarding of departmental honors will be contingent on the quality of the completed project. Students who complete two concentrations in the major may also petition for consideration.

PRIVATE LESSONS
Lessons in most instruments and voice may be taken for one credit per semester. They must be arranged through the department at set fees that are not included in tuition. Please note that registering for lessons cannot guarantee availability due to difficulties in scheduling. To avoid overloading, students may also take lessons for no credit as indicated in the catalog.

PERFORMING GROUPS
Admission to performing ensembles is by audition (except Choral Union, Symphonic Band and Marching 97.) Students receive one credit per semester by registering for the appropriate course number. Students may also register for zero credit as indicated in the catalog. Although there is no limit to the number of these courses that may be taken, students should check with their adviser to determine the number that may be applied toward graduation.

COURSE OFFERINGS
Please note that many upper level courses have no prerequisites beyond MUS 010 or MUS 011 and are open to anyone with basic knowledge of musical terminology.
