Finance

In the era of a growing competitive global economy, finance has become increasingly important and complex. This has led to an expansion of career opportunities within corporations, investment firms, and financial institutions worldwide. These opportunities are varied and often overlap with other disciplines such as accounting, economics, marketing, and mathematics. It is also important that students engage in extracurricular activities that might complement their academic studies.

The domestic financial services industry has been at the forefront of global finance and will remain as one of our relative strengths within a global economy. Lehigh, in turn, enjoys a relative advantage in this regard as Lehigh alumni are well respected in all areas of finance. Our program has also been able to take advantage of our proximity to many financial institutions.

Professors. Paul Brockman, PHD (Louisiana State University); Kathleen W. Hanley, PHD (University of Florida); Richard J. Kish, PHD (University of Florida); Matthew A. Melone, JD (University of Pennsylvania); George A. Nation, III, JD (Villanova University); Nandkumar Nayar, PHD (University of Iowa); Georgette C. Phillips, JD (Harvard Law School); Xuemin Yan, PhD (University of Iowa)

Courses

FIN 125 Introduction to Finance 3 Credits
An introductory finance course stressing the links between corporate finance and investments. Major topic areas will include financial statement analysis, time value of money, risk and return valuation of stocks and bonds, capital budgeting, and cost of capital.
Prerequisites: ACCT 151 and (ECO 145 or ECO 045 or MATH 231 or ISE 111 or IE 111 or SR 111) and (MATH 021 or MATH 031 or MATH 076 or MATH 081)

FIN 273 Finance Internship I 1-3 Credits
Based on a student’s work experience, a sponsoring faculty member shall direct readings, projects, and other assignments—including a “capstone report.” It should be noted that the work experience (at least 80 hours), by itself, is not the basis for academic credit. The faculty directed activity must be provided concurrent with the work. Course registration and related arrangements must be made in advance of the work engagement. This course must be taken Pass/Fail and cannot be used to satisfy finance major requirements. Declaration of a finance major. Consent of department required.
Prerequisites: (ECO 129 or ECO 029 and ACCT 151) and (ECO 145 or ECO 045 or MATH 231 or ISE 111 or IE 111 or SR 111) and (MATH 021 or MATH 031 or MATH 076 or MATH 097 or MATH 081)

FIN 300 Apprentice Teaching 1-3 Credits
Repeat Status: Course may be repeated.

Readings, projects and papers designed to complement the leadership and analytical activities associated with the management of the Student Investment Club or Thompson portfolios and similar activities. Consent of instructor required.
Repeat Status: Course may be repeated.
Prerequisites: FIN 323

FIN 377 Advanced Topics–Investments 3 Credits
Advanced topics to specific areas of investments such as: valuation/ security analysis; portfolio risk management; fixed income securities; mutual funds; hedge funds; microstructure; and trading.
Repeat Status: Course may be repeated.
Prerequisites: FIN 323 and FIN 328

FIN 382 Guest Speaker Seminar Series 1 Credit
This course is designed to help prepare students for ‘real’ world problems by exposing them to a variety of career opportunities. The purpose of this seminar is to give students the opportunity to network with successful professionals in the Financial Services industry, connecting students and practitioners across places and generations to build community around shared work-as-service interests. For future professionals, this seminar advances co-curricular programming to the “pro-curricular” level – linking classroom study of finance to the dynamic world of the practicing financial professionals.
Repeat Status: Course may be repeated.
FIN 388 (BIS 388) FinTech Capstone 3 Credits
This course combines experiential learning via a semester long hands-on project with a series of lectures on relevant topics. Students will learn how to apply the information technologies and financial concepts they learned in the other courses to issues in the creation, distribution, servicing, or operations of financial products and services. These issues may include cybersecurity, payment processing, algorithmic trading, credit scoring, blockchain, cryptocurrency, artificial intelligence, machine learning, peer-to-peer lending, online banking, and mobile banking.

Prerequisites: (CSE 012 or CSE 017) and BIS 352 and (BIS 348 or CSE 347 or ISE 364 or ISE 365) and (BIS 324 or CSE 241 or ISE 224) and FIN 330

FIN 389 Honors Project 1-8 Credits
Repeat Status: Course may be repeated.

FIN 418 Principles of Corporate Finance and Investments 3 Credits
This course provides students with a basic foundational knowledge of finance principles, working knowledge of various aspects of corporate finance, and the principles of investments. Short-term financial decisions will be discussed. Long-term capital investment will be explored starting with the basics of time value of money and capital investment techniques. Topics include the determination of the appropriate investment discount rate, the organizationâ€™s cost of capital and hurdle rates, the risk-reward tradeoff, and specific financial instruments.
