Williams Hall, 31 Williams Drive

** THIS PROGRAM IS CURRENTLY ON HIATUS. NO NEW MINORS ARE BEING ADMITTED INTO THE SUSTAINABLE DEVELOPMENT PROGRAM. **

Students of any discipline who are interested in helping solve the triple bottom line challenge of their generation: economic well-being, environmental protection, and social inclusion, are invited to join with like-minded students to collaborate in devising and implementing solutions to real-world challenges of Sustainable Development (SDEV).

**MINOR IN SUSTAINABLE DEVELOPMENT**

The minor in SDEV consists of a minimum of at least 15 hours of study that includes a combination of core courses and approved electives.

The minor in Sustainable Development (SDEV) consists of a minimum of at least 15 hours of study that includes a combination of core courses and approved electives.

**Courses**

**SDEV 010 Challenges of Sustainable Development 4 Credits**
History and principles of sustainable development, including their application to projects in both rich and poor countries. Survey of current environmental, social and economic challenges to sustainable development. Philosophy and ethics of external intervention for poverty alleviation and green development, especially in poor societies. Integrated approaches to sustainable development practice, including the inter-relationship of the health sciences, natural sciences, social sciences and management.

**Attribute/Distribution:** SS

**SDEV 011 Social Research for Engineering Projects 1-2 Credits**
Research project under the supervision of faculty.

**Repeat Status:** Course may be repeated.

**Attribute/Distribution:** SS

**SDEV 122 Sustainable Dev:CR Experience 3 Credits**
Investigation of the concept of sustainable development as currently being practiced in Costa Rica. Case studies in diverse areas (e.g. agriculture, bio-prospecting, ecotourism, energy, and land use) demonstrate how current approaches to sustainable development are influenced by the history and ecology of Costa Rica, as well as the structure of its political, social, and economic systems. Attention to theories of sustainable development and of consumption help to frame the Costa Rican experience. Students maintain individual “sustainability” journals based on their experiences from which they draw for team-based research and writing projects. The course is offered through Lehigh Abroad and consists of 5 evening classes during the fall semester and required course travel to Costa Rica between the fall and winter semesters (approximately 18 days). Final course projects are due early in the spring semester. Course participation will require additional fees as described by Lehigh Abroad (airfare and program fee).

**Prerequisites:** SDEV 010

**Attribute/Distribution:** SS

**SDEV 123 (HMS 123) Oceans and Human Health 4 Credits**
The world’s oceans affect human health in many ways: they provide food and water to human populations; they are a point of exposure to pollutants, toxins, and diseases; and they provide pharmaceuticals and animals used in biomedical research. This course explores the interactions between oceans and human health by studying the ways in which they intersect. This summer study abroad course is based at the Bermuda Institute of Ocean Sciences (BIOS).

**Attribute/Distribution:** NS

**SDEV 201 Sustainable Development Solutions, I 3 Credits**
Projects practicum in which cross-disciplinary teams of 5-6 students focus on understanding the context of a particular NGO amidst the broader social, economic, and scientific challenges to sustainable development. Analytic techniques for designing, implementing and evaluating projects. Nuts and bolts of development practice. Teams work on needs assessment related to their NGO’s proposed goals and devise innovative solutions for implementing development projects. On-the-ground field experience, whether international or domestic, is required. Fee may apply. Oral presentations and written reports.

**Prerequisites:** SDEV 010

**Can be taken Concurrently:** SDEV 010

**Attribute/Distribution:** SS

**SDEV 202 Sustainable Development Solutions, II 2-4 Credits**
Continuation and extension of projects begun in SDEV 201. Refine implementation strategies and develop project evaluation protocol. Oral presentations and written reports.

**Prerequisites:** SDEV 201

**Attribute/Distribution:** SS
SDEV 203 Research in Sustainable Development 2-4 Credits
Students will work on sustainable development research projects not
involving field work. Consent of instructor required.
Repeat Status: Course may be repeated.
Prerequisites: SDEV 010
Attribute/Distribution: SS

SDEV 300 Apprentice Teaching 1-4 Credits
Repeat Status: Course may be repeated.

SDEV 307 (ENTP 307) International Social Entrepreneurship 4
Credits
International social entrepreneurship aims to change the world
through innovation in solving social problems. Focus on the nexus
between social entrepreneurship and development practice, especially
in relation to NGOs. Emphasis on acquiring tools and conceptual
frameworks to launch new social ventures through real hands-on
international fieldwork and team-oriented learning by doing. Exposure
to best practices of how to affect meaningful social change in poor
countries, to generate and evaluate innovative ideas to develop them
into concrete on-the-ground startups.
Attribute/Distribution: SS

SDEV 310 (ES 310) Foundations of Sustainable Development
Practice 4 Credits
The broad goal of this course is to introduce students to the
foundations of key sectoral and thematic knowledge for important
challenges to sustainable development: food and nutritional security,
social service delivery, energy policy, water resource management,
urbanization, infrastructure, human rights, biodiversity, adaption
to climate change, mitigating GHGs, sustainable business, good
governance, and more. Through the Global Classroom we will do this
together virtually with academic partners from around the world.
Attribute/Distribution: SS

SDEV 372 Independent Study in Sustainable Development 1-4
Credits
Opportunity for students to pursue individual sustainable development
projects or continue work begin in SDEV 201/202. May not count
towards minor's credit requirements. Consent of department required.
Repeat Status: Course may be repeated.
Prerequisites: SDEV 010
Attribute/Distribution: HU, SS
