Advisement

The academic advisor is one of the most valuable resources in the educational process, not only to assist in making academic selections to match the student’s particular background, interests, and future objectives, but also to identify program options, to work out an academic pace, and to develop career planning strategies. The advisor will help to identify other resources and support systems available at the university, such as the Center for Academic Success, Counseling and Psychological Services, and Career Services.

Every undergraduate in the College of Arts and Sciences and the P.C. Rossin College of Engineering and Applied Science is assigned a faculty advisor upon matriculation. This advisor will usually change when the student selects a major or program.

Undeclared majors in the College of Business and Economics (CBE) are assigned to a professional advisor in the CBE Undergraduate Center. When the major has been declared, a faculty member from the major department will be assigned as the academic advisor.
